me," and said that that was all he had
said to Mrs. Jacobson.

Commissioner Gill said that the evi-
dence was of such strength that Tan-
bara must be held without bail. "Ow-
ing to the fact that this is a court of
limited jurisdiction, it has not the power
to order the issuance of a warrant,
or a commitment," said the Commis-
sioner. "But the evidence adduced
leads the court to believe that the wit-
ness, Oto, was at least an accessory be-
fore the fact. His actions on the stand
gave evidence of rank perjury, and
had this court had the power a bench
warrant would have been ordered."

Tanbara and Oto are kept separate
at all times in the jail. The accused
murderer is under watch all the time,
in a cell.

the certificates at a much lower rate
than was fixed by the Commission, and
the Commission will have to abandon
the hope of repaying \$4,000 it borrowed.
Some of those who are agitating for
immediate issuance of warrants are
said to be after business in discounting
them. It is stated to be the desire to
confuse the situation and secure the
issuance of thousands of warrants
which there is no money to pay, in order
that speculators may take advantage
of the situation and buy in the
warrants at extortionate discount.

WANTED.

When we called attention a few
weeks ago to our new preparation
called **Casara** we felt
there was a demand for a really good
article made from Casara Sagrada
bark. We were not mistaken and we
are greatly pleased that the community
has appreciated our efforts.

We offered to give free samples of
Casara but few asked
for them preferring to take the regular
package being sure that we would not
recommend it as we did unless there
was real merit. They were right. This
has always been our policy and cus-
tomers know if the preparations are
not as represented they get their mon-
ey back. No risk taken in dealing
with us.

Casara is a pleasant-
to-take laxative made from the bark,
Casara Sagrada, which is well known
for its most excellent cathartic quali-
ties. It tones and strengthens and is
a cure for habitual constipation. Chil-
dren take it readily. Samples free.

have lived there with my family since
1888."

Captain John Ross, a well-known
skipper, was seen in the office named
in the advertisement. "Today," he
said, "mark a turning point in the
history of our company. It is the date
of the expiration of an option held on
the island by the South African Char-
ter Company of London, England, of
which the late Cecil Rhodes was pres-
ident. We expect word from them by
cable that the option will no longer
be maintained, and will then go ahead
with the work of organizing the ex-
pedition. I have prepared plans of a
schooner which will take some four
months to build."

Here Captain Ross stopped and said:
"I do not know if I should say too
much. Captain Giesler has been di-
rectly opposed to having anything in
the newspapers. I have said a distinct
view, believing good
newspaper articles would help us. Here
is a copy of the concession in the
Costa Rica official gazette. The treas-
ure is variously estimated at from
\$13,000,000 to \$60,000,000 in money,
bullion and utensils. In one excavation
was buried 300,000 pounds of silver
and silver dollars; in another cave
733 bars of gold, each 4 by 3, two inches
thick, as well as bejeweled swords,
precious stones, and several kettles
filled with gold."

"About the year 1820, pirates in the
West Indies were driven out of there
by English war vessels. The pirates
came around the Horn to the Pacific
side of Central America, and in 1821,
when Mexico threw off the Spanish yoke
and the rich Spaniards in Mexico
loaded their wealth on Spanish galleons
and started for Manila the pirates cap-
tured them and buried the treasure on
Costa Rica. Then they went back
around the Horn to the West Indies to
secure what they had hidden there.
Meantime two of the crew, Thompson
and Chapel, Englishmen, landed at
Valparaiso, worked their way back to
England and informed the British
Government. A man-of-war was sent
out, the treasure in the West Indies
found and dug up and all the pirates
with the exception of two—eighty in
number—hung in Jamaica. The mer-
chant of Liverpool subsequently char-
tered a small vessel which started for
Costa Rica, but after a vain search in
the Pacific they could not find it."

Captain Giesler has direct informa-
tion from the descendants of one of the
two men who left the pirate at Valpa-
raiso. The relatives of a man named
Keaton also have this information.
Keaton stated there in 1846, found the
treasure and removed all he could, val-
ued at \$75,000. He had a man with him
named Bogue. The latter never re-
turned, and Keaton was suspected of
killing him and narrowly escaped being
hung in St. John, New Brunswick.
Keaton's friends afterward fitted out a
number of expeditions from this city
and from Victoria. The brig Blakely
left Victoria last spring for Costa
Rica. Captain Giesler noted the Gov-
ernment of Costa Rica of the intended trip
and about five weeks after she left that
Government sent a man-of-war to in-
tercept her, but did not find her at the
time. I understand that the Herman
belonged to the Alaskan Commercial
Company. Relatives of Keaton were
on board her."

There have been a score or more at-
tempts to steal the treasure. Fifty years to
secure the treasure of Costa Rica, but
never before did there threaten to be
three rival expeditions with so care-
fully prepared data on the right trail
of the coveted loot of the robbers of the
Spanish main.

ONLY CITIZEN LABOR

The Treasury Department has sent to
collectors of internal revenue and
customs copies of an interesting list of
regulations establishing a sort of civil
service for manual laborers. The regu-
lations went into effect on the 28th of
last month, in the District of Columbia
but their general circulation among
heads of bureaus is taken to mean that
they are to be observed in all employ-
ment of laborers under the treasury de-
partment. There is very little unskilled
manual labor employed by the de-
partment here at present, so that the
rules will not require any changes.

The rules contain the following regu-
lations as to who shall be employed, and
the conditions:

"6. Political or religious affiliations
of applicants shall not be given any
consideration whatever, nor shall poli-
tical endorsements be received or enter-
tained.

"7. Applications of persons over 55
years of age will not be considered, ex-
cept of honorably discharged United
States soldiers or sailors of the Civil
War or of the Spanish-American War,
and of those entitled to the benefits of
section 1764, Revised Statutes.

"8. Applications shall not be received
from persons who are badly crippled or
deformed, or from persons who are not
citizens of the United States. Ap-
licants who claim citizenship through
naturalization shall be required to sub-
mit to the board documentary proof of
their naturalization.

"9. Applications shall be received by
the board of labor employment at any
time. On the first of January and the
first of July of each year the board
shall determine the relative fitness of
each applicant who has filed his appli-
cation in complete form within the six
months preceding. The rating or deter-
mination of relative fitness shall be
made on a scale of 100 and based upon
a careful consideration of the appli-
cant's age, his physical qualifications
for performing mere manual labor, and
his ability and adaptability to perform
such labor, special consideration being
given any former service as laborer in
the Department. In rating an appli-
cant, no credit shall be given for any
qualifications which he may possess
other than those for the performance
of manual labor, as above enumerated.
The fact that an applicant can not read
and write shall not be considered in de-
termining his rating. Whenever in any
case the board is unable to determine
satisfactorily the rating of an applicant
upon the information furnished in con-

nection with the application, it may se-
cure such further information as it
may desire in respect to the applicant's
character or ability, and may summon
the applicant to appear personally be-
fore the board or its representative.
Provided, That all information or mat-
ter which is given any consideration in
determining the rating shall be re-
duced to writing and made a part of the
applicant's papers. All applicants who
receive a rating of 70 or more shall be
deemed eligible. Whenever it may be
necessary in order to supply qualified
persons for appointment the board may
at any time, between January 1 and
July 1, rate all applicants whose appli-
cations may be at such time on file and
unrated.

"10. As soon as the board has com-
pleted the rating of applicants for any
period, as provided in section 8 of these
regulations, it shall enter upon the re-
gister of eligibles the names of all those
whom it has determined, in accordance
with said section, to be eligible for the
performance of mere manual labor, ar-
ranged in the order of relative fitness,
with the highest first.

"11. A person selected for appoint-
ment shall receive a certificate for a pro-
bationary period of six months, at the
end of which period, if his conduct and
capacity are satisfactory to the Secre-
tary of the Treasury, he shall be given
an absolute appointment; but if his con-
duct and capacity be not satisfactory,
he shall be notified that he will not re-
ceive absolute appointment because of
such unsatisfactory conduct or want of
capacity, and such notification shall
discharge him from the service. Re-
moval during the probationary period
or after absolute appointment shall
be made without any regard to politi-
cal or religious affiliations. When ever
a person is separated from the position
of mere manual laborer for any reason,
he shall be given what may be
known as a separation card, upon
which shall be entered a statement of
the reasons for his separation and of
the character of service rendered by him.

"12. Persons appointed through cer-
tification by the board of labor em-
ployment under these regulations shall
not be assigned to the performance of
any clerical duty or of any duty pro-
perly belonging to any position class-
ified under the civil service law."

Sugar Telegram: Now at hand dated
New York, Aug. 1, 1902, reads:

"Cost and Freight Sale 500 tons equi-
valent in long price to 3.35c, Granulated

sequently basis for 36 degree Centrifugals
in New York last established by
transactions recorded above is 3.35c;
San Francisco, 3.0025c.

London cable: July 28th quotes Java
No. 15 D. S. 7 1/2c; Fair Refining, 6 1/2c;
same date last year 10 1/2c and 9 1/2c re-
spectively. August Beets 6 1/2c against

world estimated grand total (cane and
beet) sugar, 10,844,256 tons against 9-
648,318 tons same date last year; esti-
mated increase in the world's production
1,185,938 tons.

Eastern and Foreign Markets: The
depression in the Raw Sugar Market,
noted in our last circular, was shortly
dissipated, changed conditions in Cuba
contributing in large measure to bring
about a more hopeful feeling. Refiners
having reduced their holdings in the
island materially, and the pressure to
sell previously exerted by planters fi-
nancially overburdened having been re-
moved, it became apparent that the
balance of the unsold crop available for
export, estimated to be not more than
100,000 to 150,000 tons sugar, besides be-
ing strongly held, could be absorbed
without difficulty. The more so since
stocks in the United States are upon
an exceedingly reduced scale for this
season of the year with heavy consum-
ing months ahead.

On the other hand, the demand for
Refined throughout the period now un-
der consideration being for the most
part disappointing, a quiet and feature-
less market succeeded until latterly a
brisk demand having set in, refiners
entered the market in order to replen-
ish stocks and purchased freely all sug-
ars offered on the spot or near by.
The resultant effect was shown in a
slightly higher range of prices, and the
Raw Sugar Market closes strong, tone
and tendency favoring sellers, accord-
ing to latest mail advices from New
York under date of the 26th ult.

European Beets have fluctuated with-
in narrow limits, but an improvement
is now manifest, and it is held in some
quarters that the lowest level in prices
has been reached. Reports indicate that
the weather in Europe is generally favor-
able for the growing crop, but never-
theless the belief is prevalent that sow-
ings will show a decrease. Greater ac-
tivity has been displayed in Javas, the

THAT TIRED FEELING.

What constitutes a load de-
pends on the strength of the
man or beast who has to carry it
and the conditions under which
he carries it. We hear people
continually talk of being tired
who have not done a sufficient
amount of work to make them
so. This sensation is popularly
spoken of as "that tired feeling."
People who have it often take
stimulants to drive it away; the
relief, however, is but momen-
tary. A relapse follows and they
feel more weary and depressed
than before. For the trouble is
not in the muscles but in the
blood. Certain humors or poi-
sons, arising from indigestion or
otherwise, deprive the blood of its
sustaining life-giving power, pro-
ducing a result similar to what
would follow from too much ex-
ertion and too little rest. But
whereas in the case of a healthy
person the tired feeling would pass
away under the influence of sleep
and repose, it is not so in this
instance. On the contrary, sleep
itself is broken and imperfect, and
the sufferer rises in the morning
unrefreshed and feeling as heavy
and dull as when he went to
bed. An effective remedy like

WAMPOLE'S PREPARATION
is needed to purge the blood of
the impurities which prostrate
the nerves and sap the sources
of physical vigor. It is palata-
ble as honey and contains the
nutritive and curative properties
of Pure Cod Liver Oil, extracted
by us from fresh cod livers, com-
bined with the Compound Syrup
of Hypophosphites and the Ex-
tracts of Malt and Wild Cherry.
In all cases of Wasting Disease,
Rheumatism, Bowel Complaints,
Fever, Poverty of Blood, Weak-
ness and lack of Nervous Tone,
it comes more nearly to being a
specific than any other known
remedy. You may trust it on its
merits. Effective from the first
dose. "You cannot be disappoint-
ed in it." Sold by all chemists.

low freights offering inducements to
shippers, and the present tendency
of the market is apparently towards high-
er prices.

BRAY'S BRAY SILENT.

Fish Monger Can Not Be Found By
Police.

The police are searching for H. J.
Bray, the ex-fish dealer. They do not
wish to purchase fish from him. Their
purpose is to place him under arrest on
a charge of embezzlement. Bray is
the individual who secured a stall in
the local fish market, and with nu-
merous brays, announced that he would
soon drive the Japanese out of that
business. In fact, he applied to the
United States authorities to prevent the
Japanese foreigner, from taking the
fish from the local waters.

Louis Grus of Wailanae swears to a
complaint last month charging that he
had sent \$50 worth of fish to Bray and
that the latter had disposed of the fish
and failed to make return. The police
have been unable to locate Bray and
have marked on the warrant "Gone to
the coast." Meanwhile, there is no more
braying around the fish market.
